Dear Mr. Mellor:

Re: Notice of Completion of Exploration Activities, Trixie and Eureka Standard-Apex Project, E/049/012, Utah County, Utah

Thank you for your letter received by the Division December 4, 1991, regarding completion of the Trixie and Eureka Standard-Apex Project exploration program, located in Sections 22 and 28, T10S, R2W, SLBM, Utah County, Utah. Your letter meets the notice requirements of Rule R613-002 of the Utah Mined Land Reclamation Act of 1975, Title 40-8, et seq, Utah Code Annotated, 1953.

Your letter also indicated that the Zuma and the Iron King, permit number, E/049/021, also have the exploration work completed but have not yet been reclaimed. A progress report (MR-EPR) for this project is enclosed. According to your letter, the Iron King is the only portion of this project that will be reclaimed, as you are amending your large mining operation (permit number M/049/009) to include the Zuma pit.

Thank you for your cooperation and efforts in completing the required reclamation on these projects. When in the area, a member of the Division staff will inspect the sites.

Sincerely,

Anthony A. Gallegos  
Reclamation Engineer
